BFT-STOPPY-B-700

BFT ELECTROMECHANICAL AUTOMATIC BOLLARD WITH LED CROWN

FEATURES

The Stoppy B 200/700 bollard is the perfect solution for traffic management and security across a wide range of environments. The discretely concealed bollards provide non-intrusive yet extensive protection.

Available in both 115/500mm (55kg) or 200/700mm (105kg) height sizes, the BFT Stoppy B Bollards come with rear reflective strips for increased visibility during darkness. Bollard control can be aggregated through the use of the PERSEO CBE dedicated control panel which is capable of controlling up to four security bollards at a time. (Control panel not included see perseo CBE).
