

DAITEM-A7901

230V 12VAC 18VA POWER SUPPLY TRANSFORMER FOR SC902AU2

The A7901 is used in conjunction with the Daitem SC200AU controller and is NOT supplied in the SC901AU and the SC902AU kits. The transformer is easy to wire to the controller and is a reliable solution to keeping it powered at all times. The controller is additionally fitted with a rechargeable battery in the event of a power failure.
