

DAITEM-MHF02X

EXTERNAL SINGLE/DUAL DWELLING CALLER UNIT WITH KEYPAD

This 2 button entry panel features an integrated keypad and proximity tag reader, enabling its users to open their gates with a proximity badge or by keying in the correct code. Due to the wireless technology, there is no wiring required between the outdoor panel and the handset indoors.

FEATURES

- Full duplex communication
- Integrated keypad and badge reader

TECHNICAL INFORMATION

- Degrees of protection: IP54/IK08
- Operating temperature: -20 to +70 C
- 4 wires required between the panel and the internal unit
