FAAC-107721

750 SB 230V HYDRAULIC CONTROL PUMP UNIT WITHOUT LOCK

The FAAC 750 system is designed for gate leaves up to 3.5 meters in width and 800 kgs in weight. The hydraulic pump is available with or without hydraulic locking in open and closed position. The system is discreet, quiet, powerful and efficient. The standard version has the gate sitting on the drive unit which acts as the bottom hinge for the gate.

FEATURES

- Discreet, quiet operator, consisting of one underground drive unit and a hydraulic pump unit
- The ideal solution for large gate leaves up to 3.5m
- Facilitated installation thanks to the foundation box
- Maximum anti-crushing safety thanks to exclusive hydraulic device
