RF GATE 2.1 STANDARD KIT (1XTX/ 1XRX)

FEATURES

The system transmits the status of the pressure sensitive edges mounted on the mobile part of the gate, securely and contact free. Information is transferred wirelessly to the switching device. Simply mount, switch on and its ready! BBC Bircher Smart Access set the standard when it comes to activation and safety products, providing market leading product in todays ever demanding safety market. The RF Gate 2.1 benefits are:

· Easy installation and short start-up time

· Very versatile - can be used for residential and industrial applications

· Compatible with mechanical and resistive (8.2 KOhm) safety edges

· Uncompromising safety Cat 2 acc. to EN954-1 (EN ISO 13849-1 projected)

· Test input for start pulse or control signal

· Long service life, low operating costs due to wear free signal transmission (Average 2 year battery life)

· Up to 10 transmitters can be paired with 1 receiver

· Long range (75m to 100m)

· Acoustic low battery warning
