

RT-BG30/2204

BRUSHLESS HEAVY DUTY SLIDING GATE MOTOR UP TO 2200KG

Low voltage brushless electromechanical gearmotor, for super intensive use, with native encoder on board, irreversible, ideal for sliding gates up to 2200kg with built-in digital controller B70 series, with magnetic limit switch.

FEATURES

- Brushless heavy duty sliding gate motor up to 2200kg
