

RT-BH30/804

BRUSHLESS MOTOR ONLY FOR SLIDING GATE UP TO 1000KG

Low voltage BRUSHLESS electromechanical gearmotor, for super intensive use, with native encoder on board, irreversible, ideal for sliding gates up to 1000kg with built-in digital controller B70 series, with magnetic limit switch.

FEATURES

- Brushless motor only for sliding gate up to 1000kg
