SESAMO-KIT-PROSWINGS

PROSWING S KIT WITH ARTICULATED ARM

FEATURES

- The Proswing S is an automatic door operator for doors weighing up to 250Kg
- It offers many configurations depending on the use of the door and has been designed for extremely intensive use
- It can be programmed as a motor open/motor close operator or motor open/spring close
- It is ideal for applications where the customer requires the door to be opened only with Push Buttons and therefore the door will be repeatedly pushed against the motor when the door is closing. This type of use will not damage the Proswing S.
