SSP-BS02-E04

4 INPUT SAFETY EDGE MONITORING SAFETY CONTROLLER

FEATURES

- The BS04 safety switching device monitors connected safety edges/contact mats for actuation and interrupts
- BS02 provides LED indication of each of the 4 circuits for fault finding and checking operation
- The O/P provides connection to most manufacturers gate and door control panels
- The unit is shipped with spare resistors if both monitored inputs are not required
- Suitable for solar applications

TECHNICAL INFORMATION

This control card provides 2 separate connected safety inputs and provides:

- 4x 8K2 Ohm Safety Inputs LED indication of edge status (i.e. OK/NOT OK)
- 12/24VACDC selectable
- Test input required to comply to Cat 2 Single N/C output suitable for most control panels
- Supplied with resistors for unused inputs
- Screw terminals for easy connection
