## **GA-PROLOOP1-24V**

**SPECIALIZED** 

**SECURITY** 

**PRODUCTS** 

## **24V LOOP DETECTOR 1 LOOP**

Programmable loop detector for controlling of gates and barriers as well as regulating and counting cars in parking areas.

## **FEATURES**

- Rapid Start
- Easy programming
- Last 5 error memory (Excellent for diagnosing intermittent problems)
- Built in inductance meter
- Timer functions
- Adjustable Sensitivity, Automatic sensitivity boost (For draw bar and trailer detection)
