BFT-SP3500

400V AUTOMATIC SLIDING GATE OPERATOR

The SP3500 is a powerful 400v three phase operator. It is specially designed for large and heavy gates weighing up to 3,500kg. The structure of the gear motor, the galvanised steel casing and the on-board control unit make it the ideal solution for very intensive sites where reliability and power are essential.

FEATURES

- The SP3500 is a powerful 400v three phase operator.
- Specially designed for large and heavy gates weighing up to 3500kg.
- The structure of the gear motor, the galvanised steel casing and the on-board control unit make it the ideal solution for very intensive sites where reliability and power are essential.

TECHNICAL INFORMATION

- Power supply: 400V
- Max leaf weight: 3500kg
- Control panel: SIRIO CBB 400
- Gate speed: 10.5m/ min
- Impact reaction: Mechanical clutch
- Frequency of use: Very Intensive
