

EB900W

12VDC SURFACE EXTERNAL SOLENOID BOLT

This surface mount stainless steel solenoid bolt is suitable for outdoor use due to its weatherproof construction and is ideal for use on gates. It has fail secure operation and is able to withstand a high holding force.

FEATURES

- Fail secure (No power = locked)
- Surface mount
- Weatherproof design
- Key override facility (cylinder + 2 keys included)
- Low standby current.

TECHNICAL INFORMATION

- Stainless steel (Grade 304)
- Input voltage: 12Vdc
- Activating current: 5A
- Holding current: 600mA
- Bolt size: 18mm diameter x 30mm throw
- Bolt can operate to the left, right or downwards
- Lock monitoring contacts: COM/NC/NO
- IP55
- Body size: 300mm (L) x 41mm (W) x 46mm (D)
- Holding force: Up to 2,000kg
