## **GK700**

## MONITORED LOW PROFILE RELEASE FAIL SAFE/SECURE

Dual monitored low profile electric release (with lock monitoring and door status monitoring contacts) can be easily changed between fail-safe and fail-secure operation. Ideal for internal use where a shallow frame depth has to be accommodated.

### FEATURES

- Dual voltage
- Lock monitoring
- Door-status monitoring
- Suitable for metal or wooden door frames
- For use with cylindrical locks
- Low profile (shallow depth)
- Fail-safe or fail-secure (selectable)
- Lip extensions for wide door jambs are available on request
- Long life solenoid

#### **TECHNICAL INFORMATION**

- Up to 680kg (1500lb) holding force (static jaw strength)
- Voltage: 12-28Vdc/ac
- Current draw:
  - 230mA @ 12Vdc / 140mA @ 28Vdc
  - $\circ\,$  440mA @ 12Vac / 230mA @ 28Vac
- Relays:
  - Lock monitoring: COM / NO/ NC contacts
  - Doorstatus: COM / NO / NC contacts
- Operating temperature: -10°C to +45°C
- Maximum latch throw 15mm
