ILM-100

SSP 2 DOOR INTERLOCK BOARD

SSP 2 Door Interlock Board

FEATURES

- For use with fail-safe locks only
- Can be used in conjunction with monitored release
- Alternatively, standard door releases, alarm contacts and push-buttons can be used, eliminating the necessity for expensive monitored releases
- The relay is housed in a plastic box
- Runs on 12Vdc with changeover contacts
- 12V output, rated at 1amp per door, with volt free output to monitor system
