ILM-200

SSP 4 DOOR INTERLOCK BOARD

FEATURES

- Designed to make the installation of multi-door security interlock (airlock style) systems simple and economical
- Ensures that one door has to be closed before another door in the system can be released
- Standard door releases, alarm contacts and push-buttons should be used, eliminating the necessity for expensive components
- The relay is housed in a large relay box (SLPB4)
- Runs on 12v DC with powered changeover contacts
- 12v output, rated at 10amp (combined), with output to monitor system (12v DC)
- Can be triggered from a NO or NC source
- This unit can be cascaded thereby can interlock numerous doors

TECHNICAL INFORMATION

- Dimensions: 93 x 195 x 55mm
