S STEEL EURO PROFILE KEY SWITCH FLUSH MOMENTARY DOUBLE POLE

This momentary double pole key switch uses a Euro profile cylinder to activate the internal switch. The switch only changes state whilst the key is turned and reverts when the key is released.

FEATURES

- Momentary
 - Euro profile
 - Double pole, double throw
 - Flush mount
 - Cylinder not included (order code EVVACYL)
 - Stainless steel
 - Additional keys available
 - Keyed alike option available
- TIP: Momentary contact can only stay in position when the key is held. Maintained allows you to remove the key in contact position
