

FAAC-N-785200

CN60 SINGLE CHANNEL CAT 2 CONTROLLER FOR FIXED EDGES

The CN60 controller is a cost-effective Cat 2 single channel controller for up to 4 edges in parallel. For dual channel application, there are options for either using the INTRA 6 controller (in this case without the transmission system option) or two CN60 controllers.

FEATURES

- The CN60 controller is a cost effective Cat 2 single channel controller for up to 4 edges in parallel
