

GA-GSS-50

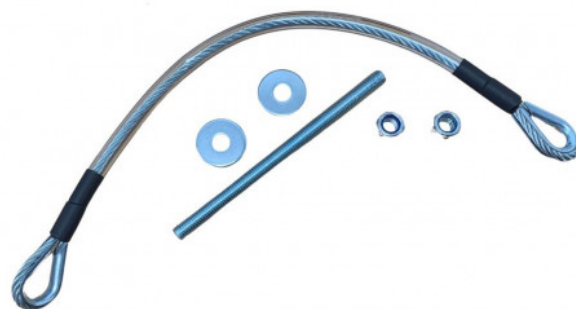

50CM GALVANISED STEEL CABLE GATE SAFETY STRAP

This 500mm safety strap can be fitted to any swing gate to ensure that the gate is retained to the post in the event of hinge failure, preventing the gate from falling. It can be either pre-fitted or retro fitted to existing installations, with a maximum load weight of 1800kg. Needed for CE Certification of a swing gate installation.

FEATURES

- 500mm safety strap
- Can be pre-fitted or retro fitted
- Maximum load weight: 1800kg
