

KS-EURO-F-MA

S STEEL EURO PROFILE KEY SWITCH FLUSH MAINTAINED

This maintained key switch uses a Euro profile cylinder to activate the internal switch. The switch only changes state when the key is turned and holds state when the key is released.

FEATURES

- Maintained
- Euro profile
- Double pole option available
- Flush mount
- **Cylinder not included (order code EVVACYL)**
- Stainless steel
- Additional keys available
- Keyed alike option available

- TIP: Momentary contact can only stay in position when the key is held. Maintained allows you to remove the key in contact position
